

Xcerra

measured by your success

**Xcerra is the parent
company for four
powerful brands in the
semiconductor and
PCB test industry**

Deep and Broad Expertise in Test Solutions

**Leading supplier of Bare Board PCB
Test Solutions**

**Established electronic interconnects
leader and global supplier for PCBA
test fixtures**

**Global provider of focused, cost-
optimized ATE solutions**

**Most comprehensive provider of
handling and interface solutions
for semiconductor test**

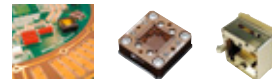

PCB Test

Interconnect & PCBA Fixtures

Semiconductor ATE

**Semiconductor Test Interface
Products**

Semiconductor Test Handlers

Serving More of the Electronics Supply Chain

Semiconductor Test

Xcerra is the only company with ownership of all the critical pieces of the semiconductor test cell which allows us to provide fully integrated solutions eliminating our customers' risk in getting to market on time and at the highest efficiency and lowest cost.

PCB Test

Xcerra provides state-of-the-art solutions for PCB and PCBA test ranging from industry leading equipment for prototyping and volume test of bare board to fixtures for testing loaded boards.

Comprehensive insights into trends and drivers of the electronics market will allow for targeted, innovative products and integrated solutions.

Xcerra solutions will

- **Increase your efficiency**
- **Reduce your cost of test**
- **Accelerate your time to high volume production**

Measured by Your Success

Xcerra's Mission:

To create and deliver the most innovative and cost effective handling, contacting and measurement solutions to the electronics industry, enabling our customers to win with affordable and reliable products that continuously improve people's lives.
